

NC-1 IOGP 476 has requirements for level one for roustabouts, crane operators and deck crew. Level 2 requirements for Roughneck, subsea eng. and derrickman.

Tuesday, 26 September 2023 00:00 | Norge - Rig/Platform - Deepsea Yantai | Tildelt ODL - Odfjell Drilling - MODU Offshore - Deepsea Yantai, Snekkevik Odd-Egil (DSY Rig Manager) | Tidsfrist Friday, 1 March 2024 |

IOGP 476 (guideline) has requirements for level one for roustabouts, crane operators and deck crew. Level 2 requirements for Roughneck, subsea eng. and derrickman.

Odfjell has a non-conformance from IOGP 476 related to level 1 for crane operator, and deck crew and level 2 for derrickman and roughneck. Although IOGP 476 is a guideline, PSA communicated during previous audits of Wellesley and DNO that this is now a requirement. However most of these position above already have covered these requirement in their basic education (Drilling Course 1, VG2 Brønnteknikk, Technical College Drilling) and are then ref. IOGP 476 dispensation for Regional vocational training schemes.

TILTAK # 2 UNDER UTFØRELSE FORFALLER IKKE

Tiltaksbeskrivelse
Odfjell to send justification for requirements related non-conformance towards IOGP476

Kommentar/status

04.12.23: Odfjell Drilling have decided to course all roustabouts, ass. crane ops, crane ops and deck foreman with level 1. Its covered by a online course. Roughnecks, ass. derrickman and derrickman are already in compliance. (Qualifying examples of work-related experience that gives dispensation includes...Regional vocational training schemes Borekurs 1, Technical College or VG 2 Brønnteknikk for Deck personnel & Drilling personnel). Moved time limit to feb 24. RelyonNutec to send out link to all required personnel.
